Insights and Inspiring Journeys
from Our Esteemed Alumni

Legacy in Motion

The true legacy of any institution is reflected in the success of its alumni. Here, we recognize their accomplishments, appreciate their impact, and share the insights they've gathered. May their stories inspire and pave the way for future generations.

MANMEET SINGH

Batch : 2014-2018 ECE

**Serving in Ministry of Communications,
Government of India.**

My four years in CCET is a life long experience to cherish upon. I have seen the college evolving during the course of time and simultaneously giving exposure to the students to polish themselves and be industry ready. Faculty is well versed with the curriculum and impart their experiences and expertise for students growth.

Several alumnis like me have put in their efforts and are engaged with Government agencies widespreading the name of CCET in the society. It's really wonderful to be part of CCET.

HARSHIT KAUR

Batch : 2015-2019 CSE

**Associate Software Analyst
at Ericsson**

Every journey in life teaches you lessons that are carried forward throughout your lifetime. I believe that an institute not only provides a vast opportunity to learn and grow but also shapes your personality, builds confidence, and awards you a degree certificate—a jewel worn every day.

I am grateful to Chandigarh College of Engineering and Technology for providing me with invaluable practical exposure that complemented our theoretical learning. I extend my heartfelt thanks to each professor for their unwavering guidance, perseverance, and passion. Their dedication, fostered an environment of curiosity, boundless exploration, and limitless learning, shaping not just my knowledge but also my perspective on growth and innovation. I would also like to thank TPC for providing us with opportunities to apply our learning and contribute to the world, which led to me being offered a Systems Engineer role at Infosys. Additionally, all the extracurricular activities and Apratim made this journey a truly enriching experience, contributing to both my personal growth and knowledge. I appreciate the exposure to diverse practical projects throughout the course, ranging from App development, Website development, Networking to AI/ML and beyond, which helped me choose the right path for myself, leading me to expand my horizons, I embarked my MTech from Punjab Engineering College(Deemed to be University) which eventually led to my journey with Ericsson.

VIDIT

Batch : 2017-2021 Civil
Pursuing MBA from IIT Mandi

As a CCET alumnus, reflecting on my journey feels surreal and highlights how much I've grown over these years. First and foremost, I want to commend the TPC team for this wonderful initiative, and I'm truly honored to share my story as part of this prestigious institution.

My four-year journey at CCET, which began in 2017, was nothing short of a rollercoaster ride filled with learning and growth. During my initial years, I made a conscious decision to explore every opportunity that came my way. Looking back, I'm immensely grateful to my professors and mentors who guided me

in the right direction, helping me discover my potential. One of the most enriching aspects of my college life was my involvement in various clubs and activities. Being part of Dramebaaz, NSS, and IIC opened my eyes to a world beyond textbooks. These experiences taught me invaluable practical lessons and helped develop my personality in ways I hadn't imagined. I discovered that while academic knowledge is crucial, it's the real-world experiences that truly prepare us for life's challenges.

From my journey, I've learned that opportunities are abundant, but they favor those who are prepared. To the current students, I'd like to share four key insights that shaped my success:

"Stay updated and adaptable in this ever-evolving world"

"Don't stress if you don't have it all figured out - it's perfectly okay to discover your path along the way". CCET didn't just provide education; it gave me a foundation to build my future upon. I'm proud to be a CCETian.

JESSICA JOSHI

Batch : 2016 -2020 CSE
**Probationary Officer at State Bank
of India**

As I sit down to pen this, I am filled with nostalgia and gratitude. Our esteemed college provided me with a solid foundation in Computer Science Engineering, which has served as a launchpad for my career. Life had other plans, and I discovered my passion for finance, leading me to pivot into a banking career. Today, I am proud to be an Assistant Manager at the State Bank of India. I attribute my success to the opportunities our college CCET provided, from academic rigor to extracurricular activities. My career line and qualification do differ, but the college's emphasis on holistic development helped me shape into a well-rounded professional. I am grateful for the lifelong connections I made during my time on campus. The college's esteemed faculty and mentors provided guidance, support, and encouragement, helping me navigate my academic and professional journey. I am proud to be part of a community that values lifelong learning, collaboration, and mutual support.

Thank you to our beloved college and the faculty for being catalysts in my journey. 'Believe in your spark, and the fire will follow'.

ANISH PATHAK

Batch : 2019-2023 ECE

**Software Test Engineer at
uTrade Solutions**

My time at Chandigarh College of Engineering and Technology (CCET) was nothing short of transformative. As an alumnus, I look back with immense pride and gratitude for the opportunities and growth I experienced during those years. Serving as the Executive Head of the Training and Placement Cell was a challenging yet rewarding role. It taught me leadership, teamwork, and the art of bridging the gap between students and industry professionals. This role allowed me to help peers unlock their potential and secure opportunities that aligned with their aspirations. Being part of Roboknox, the Robotics Club, and Beatles, the dance crew of CCET, offered me invaluable opportunities to explore my technical and creative sides. These clubs not only honed my skills in innovation and teamwork but also taught me the importance of collaboration, discipline, and perseverance. CCET provided an enriching platform to participate in such diverse activities, ensuring holistic development and exposure to various facets of growth beyond academics. These experiences played a pivotal role in shaping my confidence and broadening my horizons. The lessons learned, relationships built, and memories created have left an indelible mark, shaping the individual I am today.

PURNIMA BANSAL

Batch : 2018-2022 ECE

**Product and Strategy Analyst
at Policybazaar.com**

My time at CCET has been a transformative journey, filled with growth, camaraderie, and invaluable learning experiences. It's not just a place of education but a community that empowers us to reach our full potential. The Training and Placement Cell has been a cornerstone of our success stories. Their relentless efforts to bridge the gap between academic learning and industry expectations have paved the way for countless opportunities for students to excel in their careers.

The impact of an institution is reflected not just in what its graduates know but in how they think, engage, and contribute to society. Learning is a lifelong process, and its influence continues to ripple outward, shaping futures, guiding decisions, and leaving a lasting mark across generations.
