Cheers to the memories, the madness,
and the moments we'll never forget

THE DYNAMIC DUO: THE MITOCHONDRIA OF PLACEMENTS!

She's the mastermind behind the placements, even if 'hiring season' feels like a marathon!

Jaskirat Kaur

""Some places are more than just spaces; they become chapters of who we are." Being the Head of the Training and Placement Cell wasn't just a title rather a journey filled with purpose, people, and unforgettable moments. What started as a role quickly turned into so much more—a place where I found not just responsibilities, but also friendships and great stories.

Looking back, it was a place where I grew, not only as a leader but as a person. With an incredible team, we worked hard, overcame challenges, made lasting memories, and made it all happen.

Here's to the wonderful times and the beautiful journey it continues to be."

He's got the plan, even if placements feel like a never-ending episode of a reality show!

Tushar Singh

"What began as a fun way to skip classes and dodge attendance soon evolved into a far more rewarding experience.

Leading the Training and Placement Cell (TPC) wasn't in the original plan, but it became the perfect mix of responsibility, growth, and fun.

While the journey had its challenges, it was also filled with endless laughter, invaluable lessons, and friendships that I'll always treasure. The memories we made and the experiences we shared will stay with me forever, reminding me of how unexpected moments can lead to the most fulfilling chapters of life."

You've been the architects of our dreams, turning aspirations into reality with your unwavering support. Your guidance, care, and hard work have been the pillars that helped us build the foundations of our future. More than securing jobs, you've taught us confidence, resilience, and the power of opportunity.

THE FACES THAT MADE THIS CHAPTER UNFORGETTABLE

You showed us how to crush interviews, but we're still figuring out how to sound confident without sweating.

You survived mock tests, while we're googling 'how to write a cover letter in 10 minutes'.

Thanks for teaching us networking isn't just about LinkedIn requests—it's actual conversations!

Go conquer the corporate world, but don't forget us when you're the next big thing.

We'll be practicing our 'I got this' face, even if we're panicking inside.

When it's our turn, we'll try to channel your calmness.

Good luck, and we'll be here, googling interview tips until the last minute.

THANK YOU
